Sola's Wind/Hail Policy Works in 4 Simple Steps

01 Storm Event

A wind, hail, or tornado damages the structure, leaving you with costly repairs due to high deductibles and out-of-pocket costs.

02 Homeowner Submits Photo of Damage

Policyholders contact us and send images of their structural damage, like leaks, holes, and broken windows.

03 Sola Analyzes Storm Data

Sola receives the photos and analyzes data from NWS (National Weather Service) to confirm the storm's intensity and location.

04 Homeowner Receives Payout

Sola will send you the payout after we confirm the wind, hail, or tornado event. Payment can be used for deductible or other out-of-pocket costs.

These are some common questions we get...

Does the Sola policy have a deductible?

No, our policy does not have a deductible.

Will a claim from Sola be reported to my CLUE or historical home damage report?

No, a Sola claim is not reported on your CLUE or historical home damage report.

Will you non-renew or increase my premium after a claim?

No, we will not non-renew a policy or increase the premium after a claim. Our policy cost is only based on your home's risk, not your personal details or whether or not you filed a claim. This means we will not penalize you for getting the coverage you paid for.

What are your different payment methods?

You can pay monthly or annually through a bank account or credit card. Discount is offered for full-year payments.

Is there a waiting period before coverage becomes active?

Yes, after purchasing the policy, there is a five-day waiting period from the purchase date before you are eligible for a payout unless the policy start date is more than five days out.

What types of homes are eligible for coverage?

This policy is available for site-built homes, mobile and manufactured homes, landlord properties, vacation homes, and multiple properties. We also accept policies for farms and vacant homes. Each policy must be issued in the name of an individual.
